Table of Contents

Original Tables of Contents and Conference Committee Pages, 1980-1999
Nondestructive Testing

Papers from Thermosense III, October 1980 No papers selected

Papers from Thermosense IV, October 1981 No papers selected

Papers from Thermosense V, October 1982

Thermography-applications to the manufacture and nondestructive characterization of composites

Papers from Thermosense IV, October 1983 No papers selected

Papers from Thermosense VII, November 1984

Test of jet engine turbine blades by thermography

K. Ding [0520-11]

Thermographic evaluation of bond lines and material consistency of composites

J. B. Chambers [0520-16]

Materials characterization by thermographic imaging

W. Jeffrey Rowe [0520-17]

Applications of real-time thermography for nondestructive testing of composites

Y. L. Hinton, R. J. Shuford, C. G. Pergantis [0520-20]

Evaluation of photovoltaic panels with IR thermography

R. Tscharner, K. H. S. Rao, R. Schwarz, A. V. Shah [0520-34]

The non-destructive evaluation of composites and other materials by thermal pulse video thermography

J. M. Milne, W. N. Reynolds [0520-42]

Papers from Thermosense VIII, September 1985

Void detection in metals using heat flow parallel to the target surface

G. L. Orlove, R. P. Madding, C. P. Burger, B. Raj [0581-06]

Papers from Thermosense IX, May 1987

Thermal testing methods as new tool in NDT

C. Florin [0780-44]

Papers from Thermosense X, April 1988

Thermographic inspection of superplastically formed diffusion bonded titanium panels

D. L. Haavig, D. C. King [0934-18]

Papers from Thermosense XI, March 1989

Subsurface flaw detection in reflective materials by thermal-transfer imaging

X. Maldague, J. C. Krapez, P. G. Cielo [1094-27]

Thermographic NDT of graphite epoxy filament-wound structures

D. D. Burleigh [1094-28]
Nondestructive Testing

Papers from Thermosense XI, March 1989 (continued)

Flash lamp heat flux requirements for thermographic inspection of fiber composite laminates
S. D. Cowell, D. D. Burleigh, T. J. Murray [1094-29]

Papers from Thermosense XII, April 1990

Material property measurements with post-processed thermal image data

Recent advances in digital thermography for nondestructive evaluation
R. A. Buchanan, P. E. Condon, L. M. Klynn [1313-20]

Numerical modeling of thermographic nondestructive testing for graphite epoxy laminates
S. D. Cowell, D. D. Burleigh [1313-21]

Transient thermographic NDE of turbine blades

Dynamic thermal tomography: perspective field of thermal NDT
V. P. Vavilov [1313-27]

Papers from Thermosense XIII, April 1991

Thermally stimulated infrared thermography for composite, ceramic and metallic materials inspection
H. Tretout, D. David, J. Y. Marin, R. De Mol [1467-200]

Applications of tridimensional heat calibration to a thermographic nondestructive evaluation station
X. Maldague, L. Fortin, J. Picard [1467-28]

Qualitative and quantitative evaluation of moisture in thermal insulation by using thermography (Invited Paper)
V. P. Vavilov, A. I. Ivanov, A. A. Sengulye [1467-29]

Flaw dynamics and vibrothermographic-thermoelastic nondestructive evaluation of advance composite materials
L. H. Tenek, E. G. Henneke II [1467-30]

Quantitative measurement of thermal parameters over large areas using pulse-video thermography
C. P. Hobbs, D. Kenway-Jackson, J.M. Milne [1467-31]

Corrosion evaluation of coated sheet metal by means of thermography and image analysis
P. Jernberg [1467-33]
Nondestructive Testing

Papers from Thermosense XIII, April 1991 (continued)

Thermographic analysis of the anisotropy in the thermal conductivity of composite materials
D. D. Burleigh, W. De La Torre [1467-35]

Time-resolved infrared radiometry of multilayer organic coatings using surface and subsurface heating
J. W. Maclachlan Spicer, W. D. Kerns, L. C. Aamodt, J. C. Murphy [1467-36]

Infrared thermal-wave studies of coatings and composites

Papers from Thermosense XIV, April 1992

Thermographic imaging of cracks in thin metal sheets

Processing infrared images of aircraft lapjoints
H. I. Syed, W. P. Winfree, K. E. Cramer [1682-25]

Inversion of pulsed thermal-wave images for defect sizing and shape recovery
L. D. Favro, D. J. Crowther, P. K. Kuo, R. L. Thomas [1682-26]

Automatic defects recognition in composite aerospace structures from experimental and theoretical analysis as part of an intelligent infrared thermographic inspection system
D. G. David, J. Y. Marin, H. R. Tretout [1682-27]

Detection of failures in plastic composites using thermography
A. Laine [1682-29]

Evaluation of moisture content in porous material by dynamic energy balance

Infrared thermography of fatigue in metals
M. P. Luong. [1682-34]

Thermography evaluation of metal bonding materials
M. Safai [1682-35]

Source patterning in time-resolved infrared radiometry of composite structures
J. W. Maclachlan Spicer, W. D. Kerns, L. C. Aamot, J. C. Murphy [1682-37]

Papers from Thermosense XV, April 1993

Inversion of pulse-echo thermal wave images
L. D. Favro, D. J. Crowther, P. K. Kuo, R. L. Thomas [1933-15]
Nondestructive Testing
Papers from Thermosense XV, April 1993 (continued)

Comparison of scanning and focal-plane-array cameras for IR thermal wave imaging

Time-resolved infrared radiometry (TRIR) using a focal-plane array for characterization of hidden corrosion

Corrosion detection in aircraft skin
H. I. Syed, K. E. Cramer [1933-19]

Adaptive thermal tomography algorithm
V. P. Vavilov, X. Maldague, B. Dufort, A. I. Ivanov [1933-20]

Infrared thermographic inspection of superplastically formed/diffusion-bonded titanium structures
D. A. Theilen, R. J. Christofersen, B. G. Dods, D. C. Emahiser, B. H. Robles [1933-21]

Evaluation of a prototype thermal wave imaging system for nondestructive evaluation of composite and aluminum aerospace structures
J. J. Selman, J. T. Miller [1933-22]

Quantitative thermal depth imaging of subsurface damage in insulating materials

Large-area thermographic inspection of GRP composite marine vessel hulls
T. S. Jones, H. Berger, E. Weaver [1933-25]

Active thermal testing of moisture in bricks
P. G. Bison, C. Bressan, E. G. Grinzato, S. Marinetti, V. P. Vavilov [1933-26]

Remote sensing study of detecting of flaws in structural material

Papers from Thermosense XVI, April 1994

Thermographic NDT based on transient temperature field under joule effect heating
T. Sakagami, K. Ogura [2245-17]

Thermal-wave imaging of composites and polymers
L. D. Favro, P. K. Kuo, R. L. Thomas [2245-18]

Optimization of thermographic NDT using finite element analysis
K. E. Lulay, M. Safai [2245-19]

Thermographic inspection of marine composite structures
T. S. Jones, E. A. Lindgren [2245-20]
Nondestructive Testing
Papers from Thermosense XVI, April 1994 (continued)

Nondestructive testing (NDT) of satellite structures during their assembly by infrared stimulated thermography

Thermographic nondestructive testing (TNDT) of honeycomb composite structural parts of Atlas space launch vehicles

New results for prediction of cutting tools wearing resistance using one- and two-side transient thermal NDT method
V. Vavilov, V. A. Pushnykh, V. Tsipilev, A. V. Shipulin, E. G. Grinzato [2245-26]

Moisture evaluation by dynamic thermography data modeling
P. G. Bison, E. G. Grinzato, S. Marinetti [2245-28]

Object shape determination from a single infrared thermal image
E. Barker, X. Maldague, D. Laurendeau [2245-29]

Infrared thermography standards for nondestructive testing
R. J. Bruening, L. Mordfin [2245-32]

Dual-band infrared imaging to detect corrosion damage within airframes and concrete structures
N. K. Del Grande, P. F. Durbin [2245-43]

Defect detection in multilayered, plasma-sprayed zirconia by time-resolved infrared radiometry: a comparison between analytical and experimental methods

Papers from Thermosense XVII, April 1995

State of the art of aerial thermography in Iceland: thermography of geothermal areas during the past 20 years
S. Bjornsson, K. Arnason [2473-01]

TX model: a quantitative heat-loss analysis of district heating pipes by means of IR surface-temperature measurements
H. Zinko, B. Perers [2473-02]

Air-leakage effects on stone cladding panels
A. Colantonio [2473-04]

Infrared survey of 50 buildings constructed during 100 years: thermal performances and damage conditions
S.-A. Ljungberg [2473-05]
Nondestructive Testing
Papers from Thermosense XVII, April 1995 (continued)

Crawling spot thermal nondestructive testing (NDT) for plaster inspection and comparison with dynamic thermography with extended heating

Imaging the early time behavior of reflected thermal wave pulses
L. D. Favro, X. Han, P. K. Kuo, R. L. Thomas [2473-19]

Methodology of processing experimental data in transient thermal nondestructive testing (NDT)
E. G. Grinzato, V. Vavilov, P. G. Bison, S. Marinetti, C. Bressan [2473-20]

Differential thermography applied to structural integrity assessment
J. R. Lesniak, B. R. Boyce [2473-21]

Thermal wave nondestructive testing (NDT) of ceramic coatings
S. M. Shepard, L. D. Favro, R. L. Thomas [2473-22]

Microwave-source time-resolved infrared radiometry for monitoring of curing and deposition processes
R. Osiander, J. W. M. Spicer, J. C. Murphy [2473-23]

Full-field characterization of thermal diffusivity in continuous-fiber ceramic composite materials and components
J. S. Steckenrider, W. A. Ellingson, S. A. Rothermel [2473-24]

Infrared inspection of advanced army composites
T. S. Jones, E. A. Lingren, C. G. Pergantis [2473-26]

Thermographic nondestructive testing (NDT) technique for delaminated defects in composite structures
Y. W. Qin, N. Bao [2473-27]

Quantitative thermal imaging of aircraft structures
K. E. Cramer, P. A. Howell, H. I. Syed [2473-28]

Transient thermal nondestructive testing (NDT) of defects in aluminum panels
X. Maldague, V. V. Shiryaev, E. Boisvert, V. Vavilov [2473-29]

Flash infrared thermography for nondestructive testing (NDT) I/E of naval aircraft
P. J. Kulowitch, I. M. Perez, D. M. Granata [2473-31]

Inspection of low-density polyethylene using near-infrared imaging
M. W. Jones, J. M. Chandler, S. Bernstein [2473-33]

Thermal image study of detecting near-underground structures by means of infrared radiometer
Y. Okamoto, Z. Fan, C. Liu, T. Inagaki [2473-34]
Nondestructive Testing
Papers from Thermosense XVII, April 1995 (continued)

Novel applications of thermal imaging in the steel industry
J. Chen, R. Barrow [2473-35]

Corrosion/erosion detection in steel storage vessels using pulsed infrared imaging
M. J. Bales, C. C. Bishop [2473-36]

Nondestructive investigation by thermal waves of new aeroengine components
L. J.-P. Guazzzone, R. Danjoux [2473-50]

Papers from Thermosense XVIII, April 1996

Field condition limitations for thermography of marine composites
T. S. Jones [2766-20]

Practical aspects of thermal nondestructive testing
D. D. Burleigh [2766-21]

Nondestructive pulsed infrared quantitative evaluation of metals
A. Daniels [2766-23]

Thermal characterization of defects in aircraft structures via spatially controlled heat application
K. E. Cramer, W. P. Winfree [2766-24]

Forced-diffusion thermography technique and projector design
J. R. Lesniak, D. J. Bazile [2766-25]

Analysis methods for full-field time-resolved infrared radiometry
R. Osiander, J. W. M. Spicer, J. C. Murphy [2766-26]

Computational pulse shaping for thermographic inspections
W. P. Winfree, K. E. Cramer [2766-27]

Measuring defect depths by thermal-wave imaging
L. D. Favro, X. Han, P. K. Kuo, R. L. Thomas [2766-28]

Estimation of depth, width, and magnitude of material inhomogeneities from photothermal measurements
U. Seidel, H.-G. Walther [2766-29]

Determining thermal diffusivity and defect attributes in ceramic matrix composites by infrared imaging

Infrared thermography: nonplanar inspection
J. -F. Pelletier, X. Maldague [2766-32]

Damage inspection of CFRP using resistive-heating thermographic NDT
T. Sakagami, K. Ogura, S. Kubo [2766-40]
Nondestructive Testing

Papers from Thermosense XVIII, April 1996 (continued)

Statistical evaluation of thermographic NDT performance applied to CFRP
V. P. Vavilov, P. G. Bison, E. G. Grinzato [2766-45]

Papers from Thermosense XIX, April 1997

Remote-sensing visible and infrared method of locating underground objects using thermal image technique
Y. Okamoto, C. Liu, H. Agu, T. Inagaki [3056-06]

Energy assessment of building envelopes through NDT methods
I. Meroni, V. Esposti [3056-09]

Pulsed phase thermography of aluminum specimens
J.-P. Courturier, X. Maldague [3056-30]

Phase-sensitive modulation thermography and its applications for NDE
D. Wu, A. Salerno, B. Schonbach, H. Hallin, G. Busse [3056-32]

Infrared video lock-in imaging at high frequencies

Infrared scanning of damage in leather
M. P. Luong, D. Parganin [3056-34]

Application of infrared thermography to fracture mechanics
N. Ogasawara, M. Shiratori [3056-35]

NDE of composite materials by thermal method and shearography
P. G. Bison, C. Bressan, G. Cavaccini, A. Ciliberto, E. G. Grinzato [3056-38]

Lock-in thermographic inspection of wood particle boards

Coating-tolerant thermography for the detection of cracks in structures
J. R. Lesniak, D. J. Bazile, M. J. Zickel [3056-40]

IR technique for detection of wall thinning in service water piping
P. A. Zayicek, S. M. Shepard [3056-41]

Papers from Thermosense XX, April 1998

Pulsed thermographic inspection of spot welds

Nondestructive testing of the concrete roof shell at the Seattle Kingdome
G. J. Weil [3361-28]

Fast infrared measurements of the thermal diffusivities of anisotropic materials
Nondestructive Testing

Papers from Thermosense XX, April 1998 (continued)

Optimization of pulsed temporal stimulation for thermal nondestructive testing
A. Daniels [3361-37]

Cooling down thermography: principle and results for NDE
S. Danesi, A. Salerno, D. Wu, G. Busse [3361-38]

Thermal tomography characterization and pulse-phase thermography of impact damage in CFRP, or why end users are still reluctant about practical use of transient IR thermography
V. P. Vavilov, S. Marinetti, E. G. Grinzato, P. G. Bison [3361-39]

Thermal diffusivity imaging of aerospace materials and structures
W. P. Winfree, D. M. Heath [3361-41]

Thermographic detection and quantitative characterization of corrosion by application of thermal line source
K. E. Cramer, W. P. Winfree [3361-43]

Inspection of metallic thermal protection systems for the X-33 launch vehicle using pulsed infrared thermography
J. O. Taylor, H. M. Dupont [3361-44]

Applications for thermal NDT on advance composites in aerospace structures
S. R. Baughman [3361-46]

Theory and application of coating tolerant thermography
J. R. Lesniak, D. J. Bazile, M. J. Zickel [3361-47]

Advanced image processing for defect visualization in infrared thermography

Thermal inspection of SiC/SiC ceramic matrix composites

Papers from Thermosense XXI, April 1999

Finite element analysis as a tool for thermography
J. M. Kleinfeld [3700-01]

Accuracy of thermal NDE numerical simulation and referential signal evolutions
V. P. Vavilov [3700-02]

Pulsed phase thermography processing with a neural network
X. P. Maldague, S. Vallerand, Y. Largouet [3700-03]

Visualization of subsurface defects in composites using a focal plane array infrared camera
Y. A. Plotnikov, W. P. Winfree [3700-04]
Nondestructive Testing
Papers from Thermosense XXI, April 1999 (continued)

Thermographic modeling of water entrapment
I. M. Perez, P. J. Kulowitch, M. F. Dersch [3700-05]

Evaluation of high thermal conductivity graphite fibers for thermal management in electronics applications

Fast infrared imaging of static and dynamic crush tests of composite tubes
X. Han, L. D. Favro, R. L. Thomas, M. Chadwick, A. Caliskan, N. Griffith, [3700-07]

Automated recognition of spot-weld defect using active thermography

Imaging the geometry and location of defects in adhesive-bonded and spot-welded lap joints using steady state thermographic techniques
D. Turler [3700-09]

Automated IR inspection of superplastic diffusion-bonded titanium structures
R. J. Christofersen, D. C. Emahiser [3700-10]

Quantitative inspection of iron aluminide green sheet using transient thermography

Quality control of heat pipelines and sleeve connections by infrared measurements
W. Gross, T. Hierl, H. Scheuerpflug, U. Schirle, M. J. Schulz [3700-12]

Defect localization in solar modules by thermal infrared microscopy

Pulsed thermographic inspection application in commercial aircraft repair
R. Ducar [3700-14]

Thermographic testing for the X-33 launch vehicle
D. D. Burleigh [3700-15]

Bridge inspection using coating tolerant thermography
J. R. Lesniak, D. J. Bazile, B. R. Boyce [3700-16]

Quantitative thermographic measurement of defect depth and material
S. M. Shepard, B. Rubadeux [3700-17]

Thermal inspection of solder quality of electronic components
J. Varis, R. Vuohelainen, R. K. Lehtiniemi [3700-18]

New thermographic nondestructive testing technique using microwave heating
T. Sakagami, S. Kubo [3700-61]

Minimum radiation temperature difference and detection limit of flaws by means of infrared radiometer
Y. Okamoto, A. Kamoi, O. Makishi [3700-62]
Predictive Maintenance

Papers from Thermosense III, September 1980

**Heat flow in structures**
G. J. Burrer [0254-02]

**Meteorology and infrared measurements**
James B. Evans [0254-03]

**Isolating the building thermal envelope**
D. T. Harrje, G. S. Dutt, K. J. Gadsby [0254-11]

**Thermographic study of transient heat-flow in residential dwellings**
Dag Holmsten [0254-13]

**Detecting moisture in buildings using infrared thermography**
Stephen J. Marshall [0254-18]

**Canadian experience in certification and training of thermography personnel**
Peter A. D. Mill [0254-30]

**Buying thermography**
Robert P. Madding [0254-31]

Papers from Thermosense IV, September 1981

**Interpolating R-values from thermograms**
S. N. Flanders, S. J. Marshall [0313-19]

**Detection of moisture in commercial and industrial built-up roofing systems**
Victor Sopko [0313-21]

**We need to know more about infrared emissivity**
Stephen J. Marshall [0313-22]

**Recent advances in the quantification of industrial heat loss using thermography**
G. B. Mcintosh [0313-35]

**Uses of infrared thermography in the Low-Cost Solar Array Program**
Stuart D. Glazer [0313-38]

**Practical methods for improving thermal measurements**
Claes Ohman [0313-43]

Papers from Thermosense V, October 1982

**Science behind thermography**
Robert P. Madding [0371-01]

**What's out there: state-of-the-art survey of thermal infrared instrumentation**
Richard H. Munis, Herbert Kaplan [0371-02]
Predictive Maintenance
Papers from Thermosense V, October 1982 (continued)

Overview of industrial applications of thermal sensing
Herbert Kaplan [0371-03]

Roof moisture surveys: current state of the technology
Wayne Tobiasson [0371-04]

Monitoring of generator stator core lamination repairs using thermographic techniques
D. C. Stevens [0371-06]

Infrared thermal imaging of refinery equipment
A. G. Imgram, J. B. McCandless [0371-07]

Thermographic aspects of industrial predictive maintenance
George S. Baird [0371-09]

Thermographic inspection of mechanical systems
Jay G. Vanier, David E. Gay [0371-10]

Infrared scanning for electrical maintenance
Steven E. Eisenbath [0371-12]

Practical thermal measurement techniques
Gary L. Orlove [0371-16]

Use of thermography to establish a maintenance program for a pelletizing mill
Terry L. Loomis [0371-17]

Steel mill infrared surveillance: a case study
Edward R. Schaufler [0371-18]

Temperature measurements on semi-permanent mold surfaces using infrared thermography
Ronald G. Hurley [0371-19]

Thermography: a diagnostic tool for locating wet insulation in built-up roofing systems
Al H. Knehans, Paul E. Styer [0371-29]

Locating wet cellular plastic insulation in recently constructed roofs
Charles Korhonen, Wayne Tobiasson [0371-30]

Thermographic inspections and the residential conservation service program (RCS)
Ronald J. Ward [0371-41]

Glass temperature measurement for the glass industry
Gabor B. Kalos [0371-42]

Design analysis of rotating machinery using infrared thermography
Charles C. Roberts, Jr. [0371-43]

Quantitative analysis of sludge incinerators
Stephen A. Seeber [0371-45]
Papers from Thermosense VI, October 1983

Infrared sensors and process control
R. P. Madding [0446-03]

Heat loss due to thermal bridges in buildings
J. B. Fang, R. A. Grot, K. W. Childs, G. E. Courville [0446-06]

Use of thermography in the diagnostics of energy use in multifamily dwellings
K. J. Gadsby, D. T. Harrje [0446-07]

The role of thermography in the assessment of the thermal integrity of federal office buildings
Y.-M. L. Chang, R. A. Grot [0446-08]

Use of infrared thermography for the identification of design and construction faults in buildings
S. A. Seeber [0446-09]

Thermographic inspection of high-rise building envelopes
J. R. Wallace [0446-10]

Thermal signatures associated with different types of moisture-damaged roofing insulation
D. J. Templeton, D. E. Gay [0446-11]

An investigation of factors influencing infrared roof moisture surveys using a mathematical model
K. W. Childs, G. E. Courville, P. W. Childs [0446-12]

Comparison of aerial to on-the-roof infrared moisture surveys
C. Korhonen, W. Tobiasson, A. Greatorex [0446-13]

Application of airborne thermal infrared moisture surveys
H. W. MacKay, G. R. Lawrence [0446-14]

Industrial applications of qualitative thermography
L. D. Arrington [0446-15]

Infrared thermal sensing of sewer voids
G. J. Weil [0446-16]
Predictive Maintenance

Papers from Thermosense VI, October 1983 (continued)

Appraising process furnace tubes with imaging radiometers
  R. P. Bruno, G. J. Burker [0446-17]

Thermographic inspection of operating pumping units in Permian Basin oil fields
  R. E. Witte [0446-21]

Infrared thermography as a control for the welding process
  M. A. Khan, N. H. Madsen, B. A. Chin [0446-22]

The infrared emittance of semi-transparent materials measured at cold temperatures
  S. J. Marshall [0446-26]

Thermovision used for nondestructive testing of solar panels
  J. A. Baldo [0446-27]

Infrared evaluation of electrical machinery
  R. Brown [0446-28]

Assessment of thermography as a means for determining steam trap performance
  G. L. Orlove [0446-29]

Inferring temperature from optical radiation measurements
  D. P. DeWitt [0446-32]

A comparison of infrared flyover, infrared walkover, and visual inspection techniques
  for detecting roof moisture anomalies
  K. B. Ouzts, J. G. Vanier, D. E. Brotherson [0446-36]

Using high-resolution hand-held radiometers to measure in-situ thermal resistance
  D. M. Burch, D. F. Krintz [0446-40]

Papers from Thermosense VII, November 1984

Principles of calibration for radiometric temperature measurements
  D. P. DeWitt [0520-01]

The technologist as an expert witness
  R. E. K. Morrill [0520-02]

Infrared thermography and the expert witness
  C. C. Roberts, Jr. [0520-03]

Infrared (IR) transmitting materials
  W. L. Truett [0520-05]

A proposed model for thermal image scene analysis
  S. J. Marshall, R. H. Munis [0520-08]
Predictive Maintenance
Papers from Thermosense VII, November 1984 (continued)

Aerial thermography and spot radiometer applications for detecting thermal anomalies of office buildings
Y. M. Chang, L. S. Galowin [0520-25]

Residential thermal anomalies and their origins
S. Allen, L. R. Allen [0520-26]

Economics of thermographic predictive maintenance inspections
G. S. Baird [0520-28]

Location of reinforcement by induction-thermography
B. Hillemeier [0520-35]

Thermography as a diagnostic tool in building engineering
C. Florin [0520-36]

Papers from Thermosense VIII, September 1985

The misuse of infrared thermography
C. C. Roberts, Jr. [0581-03]

Questions of quality in thermographic services
G. S. Baird [0581-04]

Utility infrared program justification and development
D. Brooks II [0581-18]

Quality aspects of electric utility inspections
G. S. Baird [0581-19]

The use of infrared thermography in evaluating substation transformers
R. A. Faccinto [0581-20]

Electric motor care using infrared diagnostics
R. Brown [0581-21]

Infrared thermography as a predictive maintenance tool
R. D. Lucier [0581-23]

Thermal imaging for the nuclear power industry
F. T. Caruso [0581-26]

Thermographic applications for industrial/utilities predictive maintenance
J. G. Clark [0581-27]

Determining condenser air infiltration using thermographic methods
T. G. Harter [0581-28]
Predictive Maintenance

Papers from Thermosense VIII, September 1985 (continued)

Infrared testing: the least cost approach to effective electrical maintenance
S. A. Seeber [0581-29]

Fraud in the energy conservation field: what's the real cost
K. L. Reinke, Jr. [0581-30]

Thermographic imaging and computer image processing of defects in building materials
J. W. Martin, M. E. McKnight, D. P. Bentz [0581-31]

Development of infrared thermographic standards for New Jersey state buildings
S. Allen, L. R. Allen [0581-32]

Thermographic observation of mechanical power transmission belt drives
T. Carmody [0581-34]

Papers from Thermosense IX, May 1987

Nondestructive methods for inspection of seams of single-ply roofing membranes
W. J. Rossiter, Jr. [0780-01]

Investigation into the factors affecting infrared temperature measurements for building applications
Y. M. Chang [0780-03]

Infrared thermographic quality control for newly constructed office buildings prior to closing
S. Allen [0780-04]

Combination of thermography and pressure tests to combat air leakage problems in building enclosures
W. G. Spruin [0780-05]

Measurement of temperature distribution of glass plate using infrared thermography
Y. W. Lin [0780-07]

Regional implementation of Public Works Canada developments in thermography for building diagnostic purposes
A. Colantonio [0780-08]

Infrared evaluation of an underground stream distribution system
D. J. Templeton, M. B. Palmer [0780-09]

Effect of circuit loading on electrical problem temperature
G. S. Baird [0780-12]

Nonproblems in power plants: a primer on correct diagnosis
R. D. Lucier [0780-14]
Predictive Maintenance

Papers from Thermosense IX, May 1987 (continued)

High speed real time quantification of thermal data for process and industrial control
G. B. McIntosh [0780-19]

Industrial applications of fiber optics in infrared thermal monitoring
J. Bedrossian, Jr. [0780-20]

Temperature measurement of a friction surface in brake testing
G. K. Manghi [0780-34]

Analysis of thermal patterns on a motorized ski deck
C. C. Roberts, Jr. [0780-35]

Proposed code of ethics for infrared thermographic professionals
C. C. Roberts, Jr. [0780-40]

Status of the American Society for Testing and Materials (ASTM) efforts to provide a standard practice for infrared roof moisture surveys
V. Sopko [0780-41]

Bibliography of nondestructive testing (NDT) of composite materials performed with infrared thermography and liquid crystals
D. D. Burleigh [0780-42]

Aerial thermography: a tool for detecting heat losses and defective insulation in building attics and district heating networks
S.-A Ljungberg, M. Rosengren [0780-43]

Infrared thermography study and digital thermal image processing for solar collectors in irrigation
G. Destobbleire [0780-48]

Papers from Thermosense X, April 1988

Application of infrared thermography in fire and explosion investigation
C. C. Roberts, Jr. [0934-01]

Certification, qualification, and certificate of completion: what is the difference?
G.S. Baird [0934-02]

Mobile infrared thermographic surveys of building within a community
S. Allen [0934-05]

Experimental and theoretical evaluation of infrared thermography for surveying the condition of bridge decks
T. Masliwec [0934-06]

Roof diagnostics: the scanning window
D. B. Barry, J. C. Wong [0934-07]
Predictive Maintenance

Papers from Thermosense X, April 1988 (continued)

Development of a diagnostic testing and calibration system for infrared imaging equipment used in building diagnostics
A. Colantonio, G. B. McIntosh [0934-08]

Stress affected livestock as seen by thermography
G. B. Desroches [0934-20]

Remote infrared thermal sensing of sewer voids: four-year update
G. J. Weil [0934-26]

Method for conducting airborne infrared roof moisture surveys
W. Tobiasson [0934-40]

Roof moisture survey: a case history
R. A. Malone, A. R. Ash [0934-41]

Thermography for district heating network applications: operational advantages and limitations
S.-A. Ljungberg [0934-42]

Conditions for detecting malfunctions of buried heat distribution systems by thermographic methods
M. D. Lyberg [0934-43]

Papers from Thermosense XI, March 1989

Survey of the use of IR thermography in the Department of Energy's Weatherization Assistance Program
J. R. Snell Jr. [1094-01]

Aerial thermography: cartographic presentation of thermographic data for building applications
S. A. Ljungberg [1094-02]

Pressurization effects on thermal images of building envelopes
A. Colantonio [1094-03]

Review of the ASTM standard on IR testing of concrete bridge decks
G. J. Weil [1094-04]

Update on New Jersey's use of IR testing of concrete bridge decks
S. M. Semanovich, L. R. Allen [1094-05]

Infrared thermography as quality control for foamed in-place insulation
J. A. Schwartz [1094-06]

Temperature patterns on roof systems with ventilated air cavities
M. D. Lyberg [1094-07]
Predictive Maintenance

Papers from Thermosense XI, March 1989 (continued)

Thermography in commercial nuclear power plants
J. E. Black, Jr. [1094-08]

Analysis of electrical arcs using infrared thermography
C. C. Roberts [1094-10]

On-line temperature measurement in hot rolling of aluminum using IR imaging systems
M. J. Fairlie, W. C. Fraser, B. Farahbakhsh, R. Lamb, O. Meijer [1094-13]

Case study of applying infrared thermography to identify a coolant leak in a municipal ice skating rink
J. R. Wallace [1094-16]

Papers from Thermosense XII, April 1990

Department of National Defense’s use of thermography for facilities maintenance
J. E. Kittson [1313-01]

Infrared qualitative and quantitative inspections for electric utilities
T. L. Hurley [1313-02]

Status report on the Electric Power Research Institute IR guidelines project
R. D. Lucier [1313-03]

Estimation of hardware-failure rates using IR thermography
A. Madrid [1313-04]

Steel plant predictive-maintenance programs utilizing IR NDT
R. J. Graf, G. J. Weil [1313-05]

Infrared-thermography imaging system multiapplications for manufacturing
S. A. Stern [1313-06]

Rational approach to nuclear power station IR surveys
F. G. Bryson [1313-07]

Manufacturers' recommended body of knowledge for thermographic diagnostics
R. P. Madding [1313-09]

High-resolution thermal scanning for hot-strip mills
D. Holmsten, R. Houis [1313-29]

Paint skip detector
M. J. Haugh, D. P. Stone, M. Thangavelu [1313-31]

Infrared sensor for automated inspection of hot metal surface
J. B. Setzer, Jr., M. Thagavelu [1313-32]
Predictive Maintenance
Papers from Thermosense XIII, April 1991

Surveying the elements of successful infrared predictive maintenance programs
J. R. Snell, Jr., R. W. Spring [1467-01]

Buried-steam-line temperature and heat loss calculation
J. H. McDavid [1467-02]

Infrared-thermography-based pipeline leak detection systems
G. J. Weil, R. J. Graf [1467-03]

Utility gains through infrared predictive maintenance
J. E. Black, Jr. [1467-04]

Thermographic monitoring of lubricated couplings
R. N. Wurzbach [1467-05]

Is it worth it? Statistics of corporate-based IR program results
P. F. Johnson [1467-06]

So now what? Things to do if your IR program stops producing results
R. D. Lucier [1467-07]

Integrating thermography into the Palisades Nuclear Plant's electrical predictive maintenance program
W. C. Ridley [1467-08]

Field documentation and client presentation of infrared inspections on new masonry structures
P. C. McMullan [1467-10]

Infrared detection of moist areas in monumental buildings based on thermal inertia analysis
E. Grinzato, A. Mazzoldi [1467-11]

Discussion of the standard practice for the location of wet insulation in roofing systems using infrared imaging (ASTM C1153-90)
V. Sopko III [1467-12]

Applications and development of IR techniques for building research in Finland
H. I. Kaasinen, A. Kauppi, E. Nykanen [1467-13]

Thermal analysis of masonry block buildings during construction
L. R. Allen, S. A. Semanovich [1467-15]

Thermography and complementary methods: a tool for cost-effective measures in retrofitting buildings
M. D. Lyberg, S. Ljungberg [1467-16]

Infrared thermographic analysis of snow ski tracks
C. C. Roberts, Jr. [1467-24]
Predictive Maintenance
Papers from Thermosense XIII, April 1991 (continued)

Behavioral observations in thermal imaging of the big brown bat: Eptesicus fuscus
J. J. Kirkwood, A. Cartwright [1467-39]

Detection of citrus freeze damage with natural color and color infrared video systems
C. H. Blazquez [1467-43]

Accurate temperature measurement in thermography: an overview of relevant features, parameters, and definitions
T. Hamrelius [1467-52]

Thermal analysis of the bottle forming process
J. S. Wilson [1467-62]

Papers from Thermosense XIV, April 1992

Role of comparative and qualitative thermography in predictive maintenance
R. N. Wurzbach, R. G. Hammaker [1682-01]

Developing operational protocol for thermographic inspection programs
J. R. Snell, Jr., R. W. Spring [1682-02]

Infrared Research Services versus $$$: the bottom line
J. M. Garner [1682-03]

Development of a comprehensive IR inspection program at a large commercial nuclear utility
N. A. MacNamara, A. E. Hammet [1682-04]

Predictive maintenance for the 90's: an overview
R. D. Lucier [1682-05]

Thermographic inspection and heat flow simulation of midspan joints
M. I. Forssander [1682-06]

Renovation concepts for private houses: the use of thermography as a supporting method
T. Kauppinen, A. Hakkila, M. Hekkanen [1682-09]

Metal cladding envelope problems, retrofit solutions, and quality control investigations
A. Colantonio [1682-10]

Case study of commercial building envelope air leakage detection using infrared imaging
P. C. McMullan [1682-11]
Predictive Maintenance
Papers from Thermosense XIV, April 1992 (continued)

Thermographic inspections of air distribution systems
W. T. Morgan [1682-12]

Predictive maintenance of district heating networks by infrared measurement
L. Koskelainen [1682-13]

Infrared thermographic detection of buried grave sites
G. J. Weil, R. J. Graf [1682-50]

Papers from Thermosense XV, April 1993

Database system for managing thermography files of district heating networks
L. Koskelainen [1933-01]

Integration of infrared thermography into various maintenance methodologies
W. T. Morgan [1933-02]

Increasing maintainability and operability of emergency diesel generators with
thermographic inspections
R. N. Wurzbach, J. E. Hart [1933-03]

Masonry building envelope analysis
P. C. McMullan [1933-06]

Infrared thermography for assessing the quality of waterproofing of bridges under
construction
H. I. Kaasinen [1933-07]

Use of thermography to register air temperatures in cross sections of rooms and to
visualize the airflow from air-supply diffusers
J. Sundberg [1933-08]

Impact of aerial infrared roof moisture scans on the U.S. Army's ROOFER program
A. Knehans, J. Ledford [1933-10]

Applications of aerial thermography in peat production in Finland
M. Tervo, E. Kiukaanniemi, T. Kauppinen [1933-14]

Pulsed thermal nondestructive testing of layered materials
O. Troitsky [1933-28]

Nondestructive remote sensing of hazardous waste sites
G. J. Weil, R. J. Graf, L. M. Forister [1933-31]

Thermal imaging and paper-finishing machines
J.-M. Karjanmaa [1933-36]

Verification of plugged nozzles in reactor-building spray systems
L. Carter [1933-38]
Predictive Maintenance
Papers from Thermosense XVI, April 1994

Guidelines to thermographic inspection of electrical installations
T. Perch-Nielsen, J. C. Sorensen [2245-03]

Study of cost benefits of identification of non-problems with infrared thermography
J. P. Evans, R. N. Wurzbach [2245-04]

Advanced leak location-research evaluation demonstration (ALL-RED) project
R. G. Hammaker, R. J. Colsher [2245-05]

Detection of problems in high-power voltage transmission and distribution lines with an infrared scanner/ video system
C. H. Blazquez [2245-06]

How to prepare a written practice for infrared/ thermal nondestructive examination method
H. M. Sadek [2245-07]

Use of an infrared scanner and a nuclear meter to find wet insulation in a ballasted roof
W. Tobiasson, A. Greatorex [2245-12]

Thermographic inspection of a tennis court building with modern steel construction: constructional mistakes and bad craftsmanship
S.-A. Ljungberg [2245-13]

Use of infrared thermography in aiding and monitoring weatherization work: lessons learned
R. Gerardi [2245-14]

Application of thermal imaging to electronic fault diagnosis
L. G. Allred, T. R. Howard [2245-33]

Temperature measurement on and inside lamps
B. Wallin [2245-36]

Papers from Thermosense XVII, April 1995

Nondestructive testing: use of IR and acoustic methods in buildings pathology
W. Esposti [2473-06]

Application of differential infrared thermography in power generation facilities
H. Kaplan, P. A. Zayicek [2473-10]

Problems inherent to quantitative thermographic electrical inspections
J. R. Snell, Jr. [2473-11]
Predictive Maintenance

Papers from Thermosense XVII, April 1995 (continued)

Increasing predictive program effectiveness by integrating thermography and lubricant analysis
J. P. Evans, T. J. Jarc, R. N. Wurzbach [2473-12]

Thermal instability observation in power transistors by radiometric detection of temperature maps
S. Pica, G. Scarpetta [2473-13]

Electrical fault location for surface-mounted feeders in metallic conduit
S. Finneson [2473-14]

Use of an infrared sensing technique in the regular monitoring of incinerators and a kiln
J. Varrio, S. Kesanto, T. Heikkinen [2473-15]

American Society for Nondestructive Testing (ASNT) certification of thermographers
R. W. Spring [2473-18]

Infrared scanning of failure processes in wood
P. M. Luong [2473-37]

Papers from Thermosense XVIII, April 1996

Application of thermographic temperature measurements in injection molding and blow molding of plastics
M. Prystay, H. Wang, A. Garcia-Rejon [2766-05]

Optimization of cooling channel design and spray patterns in aluminum die casting using infrared thermography
M. Prystay, C. A. Loong, K. Nguyen [2766-06]

Thermographic inspection of hydraulic systems
T. E. Green, J. R. Snell, Jr. [2766-07]

ASNT certification of thermographers at DuPont Company
L. G. Eads, R. W. Spring [2766-08]

Developing written inspection procedures for thermal/infrared thermography
J. R. Snell, Jr. [2766-10]

Infrared thermography as a diagnostic tool to indicate sick-house syndrome: a case study
S.-A. Ljungberg [2766-11]

Improvements in new residential construction using infrared thermography and blower door
D. McCleary, R. Harvey, S. A. Semanovich [2766-12]
Evaluation of internal boiler components and gases using a high-temperature infrared (IR) lens
R. G. Hammaker, R. J. Colsher, J. J. Miles, R. P. Madding [2766-16]

Infrared thermography at EDF: a common technique for high-voltage lines but new in monitoring and diagnosis of PWR plant components
D. Provost [2766-17]

Using thermography to detect misalignment in coupled equipment
C. K. Kelch, P. E. Grover [2766-18]

Usefulness of high-resolution thermography in fault diagnosis of fluid power components and systems
M. Pietola, J. P. Varrio [2766-19]

Remote temperature sensing as a means of maintaining ski lift towers
C. C. Roberts, Jr. [2766-43]

Analysis of thermal radiation in coal-fired furnaces
J. J. Miles, R. G. Hammaker, R. P. Madding, J. E. Sunderland [3056-03]

Thermal performance of prefabricated multistory houses in Tallinn, Estonia, based on IR survey
T. T. Kauppinen, J. Hyartt, L. Sasi [3056-10]

Quantitative evaluation of building thermal performance by IR thermography inspection data
V. P. Vavilov, I. A. Anoshkin, D. G. Kourtenkov, C. D. Trofimaov, T. T. Kauppinen [3056-11]

Infrared in automotive applications (Invited Paper)
R. L. Predmesky, M. J. Zaluzec [3056-21]

Some automotive applications of infrared thermography for quality improvements (Invited Paper)
G. B. Champman II [3056-23]

Infrared electrical inspection myths
R. Newport [3056-24]

Information potential using IR technology for condition monitoring of reheating furnaces within steel and iron industry
S.-A Ljungberg [3056-25]

Steam-leak cost estimation using thermographically acquired pipe temperature data
R. P. Madding, N. A. MacNamara [3056-26]

Substation component identification for infrared thermographers
J. L. Giesecke [3056-27]

Improving thermographic analysis using image histories
S. Johnson, R. Neff [3056-28]
Papers from Thermosense XX, April 1998

Diagnostic monitoring by infrared imaging of avian embryos
R. N. Wurzbach [3361-11]

High-voltage switchyard thermography case study
R. P. Madding [3361-17]

Imaging of sealant injection into a main steam valve
D. N. Fogarty [3361-18]

Radiometric imaging of internal boiler components inside a gas-fired commercial boiler

Infrared thermography of fan and compressor systems in a predictive maintenance program
R. N. Wurzbach [3361-20]

Evaluation of thermal cracker operation by use of an infrared camera

Infrared thermography and ultrasound for both testing and analyzing valves
A. E. Rozlosnik [3361-24]

Amplitude-sensitive modulation thermography to measure moisture in building materials
W. Wild, K. A. Buscher, H. Wiggenhauser [3361-25]

Infrared thermographic surveying of building debris: Tomsk High Military School of Communication Engineering catastrophe case study
V. P. Vavilov [3361-26]

Optimal environment conditions to detect moisture in ancient buildings: case studies in Northern Italy
E. Rosina, N. Ludwig, L. Rosi [3361-29]

Thermographic inspection and quality assurance of energy conservation procedures for electric buses
H. C. Fennell [3361-30]
Predictive Maintenance
Papers from Thermosense XX, April 1998 (continued)

Tracking rotating components for complete construction of simulated images
D. T. Sass, J. D. White, T. G. Gonda, J. C. Jones [3361-31]

Online industrial thermography of die casting tooling using dual-wavelength IR imaging
H. E. Kourous, B. N. Shabestari, S. D. Luster, J. P. Sacha [3361-33]

Infrared thermography for examination of paper structure
H. T. Kiiskinen, P. I. Pakarinen [3361-34]

Full-field IR measurement of subsurface grinding temperatures

IR-camera methods for automotive brake system studies
R. B. Dinwiddie, K. Lee [3361-48]

Infrared technology in automotive components research and development
W. H. El-Ratal, D. C. Bee [3361-50]

Papers from Thermosense XXI, April 1999

Non-contact process temperature measurements in steel manufacturing
G.R. Peacock [3700-22]

Thermal imaging of railroad cars used for molten iron transport
C.A. Sahr [3700-24]

Thermography in the condition monitoring of refractory lining
T.T. Kauppinen, K. Ruotsalainen, P. Alamaki, J. Lilja [3700-26]

Recommendations for strengthening the infrared technology component of any condition-monitoring program
J. R. Nicholas, Jr. R.K. Young [3700-27]

Assessment of cooling tower thermal performance using infrared thermography
N.A. MacNamara, P.A. Zayicek [3700-30]

Infrared thermography locates overloaded neutral conductors
J. McComb, H.E. Niebla [3700-31]

Thermographic study of an electrical distribution station
E.H. Castro, E. Leone, M. Costanzo, R. Luca [3700-33]

Nondestructive evaluation of steam traps
G.L. Orlove [3700-34]

Increasing efficiency in the maintenance cycle
V.S. Ribeiro [3700-36]
Predictive Maintenance
Papers from Thermosense XXI, April 1999 (continued)

Transfer of infrared thermography by predictive maintenance technologies to Russian and Ukrainian nuclear power plants
R. Pugh, R. Huff [3700-38]

Emissivity measurement and temperature correction accuracy considerations
R.P. Madding [3700-45]

Infrared thermographic investigation procedures for four types of generic exterior wall assemblies
A. Colantonio [3700-53]

Moisture entrapment in buildings with EFIS and stucco facades in the state of Florida
K.M Barker, M.G. Knettel [3700-54]

Moisture monitoring of historical buildings by long-period temperature measurements
E.G. Grinzato, F. Peron, M. Strada [3700-55]

Using infrared thermography to determine the presence and correct placement of grouted cells in single-width concrete masonry unit (CMU) walls
G.R. Stockton, L.R. Allen [3700-56]

Quantitative infrared thermography in fire tests
H. Heinrich, K.H. Dahlem [3700-57]

Identification of convective heat loss on exterior cavity wall assemblies
A. Colantonio [3700-59]
