22 June 2015

11 June 2015

2 July 2015

2 July 2015

8 June 2015

15 May 2015

3 September 2015

8 February 2015

1 January 2015

2 July 2015

3. Activities since last report

Website renewal:

We proudly present our homepage in a new design with a new backend allowing us to post more frequently about activities. We are currently still improving the site, but its already online.

Public science fair/presentation of Lasergraffiti

During the annual “Lange Nacht der Wissenschaften” in Berlin (transl.: long night of science) members of the chapter gave several presentations to a public auditorium. Presentations included themes like “Quantum Jazz” and “Quantum Jumps” and were held for visitors to the institute. At the same time the Lasergrafitti experiment was shown and demonstrated and could be used by visitors. The setup was partially funded by the SPIE/OSA student chapter grant in 2012/2013.

Recuitment day:

In order to acquire new members we called out for a chapter meeting at the local student community center (Mops). We discussed potential activities and explained interested students about the chapter. Frankly, there were not many participants and we are discussing to make a larger announcement among younger students to be part of the chapter.

Leadership Workshop San Diego:

The chapter's president participated the annual SPIE Leadership workshop in San Diego.

4. Planned future Activities

Invited lecturer

We have been in contact with two potential lecturer, but so far assigning a date has been proven difficult as the lecturers like to set a lower priority. We are collecting a new list of candidates and send invites for 2015

5. Financial information:

Beginning balance: ~\$0

Funds raised and expended: ~chapter did not use any funds in 2014

Details of received SPIE funding: -

Other sources: -

Ending balance: ~\$0
