Person Completing Form:
President of Chernivtsi National University SPIE Student Chapter,
Yevheniya G. Ushenko

E-mail: makhrova@gmail.com

Name of Chapter: Chernivtsi National University SPIE Student Chapter

Number of Members in Chapter: 36

Names and E-mail addresses of Chapter Officers:
President: Yevheniya G. Ushenko (makhrova@gmail.com)
Vice President: Vadim V. Istrativ (istrativ@mail.ru)
Treasurer: Halyna I. Basynska (basynska@rambler.ru)
Secretary: Artem V. Motrych (motrich@gmail.com)

Chapter activities since last report:
1. Winter workshops and working with the press materials on current research and achievements in science and technology as participation in creating new courses in Ukrainian in the field of Biomedical Optics, Fiber Optics, Fractal Optics and Holography (February-March 2006). The following workshops were organized and conducted: “Optical bistability in layer semiconductors” and “Spectrophotometric methods in medicine and biology”.

2. Meetings with the students of our university and with school-leavers, in which the main aims, tasks and activities of Students SPIE Chapter mission and benefits were outlined and discussed (our tradition which was started just our student Chapter created in January 2001).

3. Maintaining and upgrading the Chapter library on Optics and Photonics. The large amount of free books, CDs and SPIE Conference Proceedings were obtained from SPIE.

4. Participation of two our new Chapter members (Gorsky Mykhaylo and Nehrych Andriy) at the Students’ Scientific Conference (KNS) 2006 which will be held in May 22nd – 24th, 2006 at Wroclaw University of Technology, Poland (our students is already there). The meeting with Wroclaw University of Technology SPIE Student Chapter members is planned in order to share information about their scientific activities with the rest of SPIE society.

5. Organization of the section of Optics within the “Annual Student Conference” in Chernivtsi National University and the contest for the best scientific presentation (May 12).

6. Our Chapter members have celebrated the “Day of our Engineering-technical college” (all our Chapter members were in the Organizing Committee).

8. Our Chapter Project “Optics and Photonics Education” is almost finished, we are planning to complete it this summer, and from the beginning of new academic year the Laboratory will start working.

Future Chapter activities:
1. Winter workshops and working with the press materials on current research and achievements in science and technology as participation in creating new courses in Ukrainian in the field of Biomedical Optics, Fiber Optics, Fractal Optics and Holography (December 2006 - February 2007).

2. Meetings with the students of our university and with school-leavers, in which the main aims, tasks and activities of our Students’ SPIE Chapter will be outlined and discussed.

3. Maintaining and upgrading the Chapter library on Optics and Photonics.
