3. There has been no SPIE event this year since we didn't applied for SPIE grants yet.

a. Past events :

i. **OSA best poster award winner of EPFL Photonics Day:**

ii. Our most attended monthly POB event which is organized every month :

b. Future events :

- i. The “must go” event we organize every month is the POB (Pizza, Optics & Beer). It is a seminar where a student or a PhD of the campus is sharing his research with the members of the chapter in an informal way. After what we share some pizzas and beverages together.
- ii. EPFL SPIE Student Chapter BBQ welcome event. We want to organize a networking and welcoming event for the new students where we can easily put together the whole EPFL photonics community. There is a nice BBQ place near the Rolex Learning Center which is ideal to share a meal together. The event is planned for beginning of October 2014.
- iii. The EPFL Photonics Day will be held on November 14th 2014. EPC plans to offer the apéro at the end of the day to network with attendees.
- iv. IYL2015 is approaching and our chapter is already thinking hard about specific events to organize. We will probably soon apply for a special event grant that SPIE is offering to support this worldwide event.

4. Financial information :

Beginning balance = 0 CHF

No funds raised; No funding received from SPIE yet.

Ending balance = 0 CHF

Thank you very much for your support. We are really happy to be able to organize these events and link people in the same field of research.
