Chapter Activities

Time: March 9th

Activity: Welcome new SPIE Student membership

In the past year, we have organized and participated in many activities, overcoming academic problems and making great progress in scientific research. As we progress, our team has attracted more students to join. Thanks to our common interests, we have achieved fruitful results in a happy time. We believe that we will do better in the future.

Time: May 5th

Activity: The “Internet+” competition

On May 5th, our chapter participated in the Internet + Contest. We completed the splicing of the UAV images on the campus of Jilin University, classified the campus features, and produced videos to showcase our work and finally achieved excellent results.

Time: May 18th

Activity: Teaching in Huigu elementary School

In May, all chapter members came to the local Huigu Primary School to hold a youth science education activity. Through a variety of interesting and knowledge-rich experiments, we explained the basic optical principles to children, let them feel the beauty of science and increase their desire for knowledge. All the children are very interested in the optical series of experiments and are actively involved. This event is very meaningful, not only for the education of young people, but also for the unity and cooperation of our club members.

Time: May 21th-25th

Activity: The Science and Technology Week

From May 21st to 25th, we launched the Science and Technology Week with the theme of “Enjoying Technology Life”. The students actively demonstrated their scientific and technological achievements, including rocking sticks, smart locks, robots and so on. The event allowed everyone to fully appreciate the magic of technology.

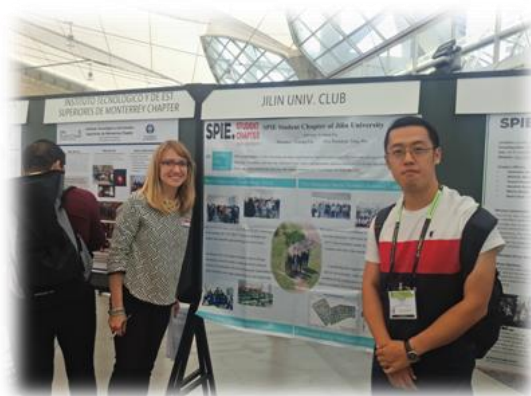

Time: August 17th-25th

Activity: Attend the conference of 2018 SPIE Optics+ Photonics

On August 17th-25th, Xintong Fan, the president of Jilin University SPIE chapter, attended the conference of 2018 SPIE Optics+ Photonics in San Diego, CA, USA. On the first day of the conference, he attended the leadership workshop. About 200 SPIE student chapter leaders from all over the world gathered at San Diego Marriott Marquis and Marina, and they talked about the topic of “the people who being a leader should have what kind of quality”. In the end, the discussion results were brilliant and full of joy. Also, there was a cosplay about how to organize an activity, it was an unforgettable experience.

A poster was presented during the conference, it shown how Jilin University SPIE chapter was like and the activities we had held or attended. During the conference, new ideas, new technologies and new instruments appears everywhere and helps a lot in our further research.

Future Plan

- 1 We plan to invite some professors to give us academic reports.
- 2 Encourage more our members make paper publications for SPIE conference in 2019.
- 3 Organize more interesting activities to advertise our chapter.
- 4 Keep close relations with other SPIE chapters.
- 5 Encourage more student members to participate in more academic activities.
