Chapter activities since last report: (meetings held, invited lectures, tutoring, etc.)

Five Chapter meetings were held at the Penn State University Park campus. The first meeting entailed a detailed description of the proposed web site for the students of the PSU SPIE chapter. The second meeting was focused around an invited talk from Dr. Yin on writing bragg gratings to optical fibers. A third meeting was held at the in May of 2004 when the new officers were elected for the upcoming academic year within the SPIE student chapter. The fourth meeting was organized toward setting up tutoring sessions for undergraduate students at the university. The fifth meeting included talks from an array of graduate students doing research within the optical fields.

Along with the meetings was a field trip to Corning, where students were exposed to the making of optical fiber, and the large glass museum. Lastly, the student chapter attended the SPIE meeting held in Denver in August.

Future Chapter activities:

The future has planned invited talks from members of the surrounding industry.

We are also planning a trip to JDS Uniphase located in Allentown, PA.

Future work towards setting up an outreach program to the local high schools is currently being pursued.
