

Student Chapter Bi-Annual Report-2006

University of Dayton

Chapter officers :

President :

Mohammad Masud Siraj
sirajmom@notes.udayton.edu

Vice-president:

Nkorni Katte
prophetkatte@yahoo.com

Secretary :

Adam Cooney
atcooney@ameritech.net

Treasurer:

Georges Nehmetallah,
Georges.Nehmetallah@notes.udayton.edu

Chapter Scientific Adviser:

Dr. Partha Banerjee
partha.banerjee@notes.udayton.edu

Student Members :

There are 14 students members listed in our chapter .

Weibin Chen

Nkorni Katte

Aziz Mahfoud Familia

Georges Nehmetallah

Anup Pandey

David Pikas

Mohammad Saleh

Jason Schmidt

Mohammad Siraj

Neil Smith

Lirong Sun

Alain Tschimwangan

Arun Venkataraman

Linda Moore

Chapter Activities :

Attendance at GLPS meetings

It was our great opportunity that the university of Dayton hosted the Great Lake Photonic Symposium (GLPS) from June 12 to June 15. All of our chapter members participated on this seminar . All of our chapter members volunteered in the registration and also helped the other student members of other student chapters too. Best part of this symposium for our student chapter that we got a great opportunity to meet other students from other chapters and exchange the view. We met the student members from the chapters of Kent State University, Pennsylvania State University, University of Notre Dame, University of St. Andrews School of Physics and Astronomy. Since we were host we arranged a tour to our university . We showed them our campus and the optical labs. We organized a cookout from our chapter for the honour of all guest chapters.

Attendance at SPIE meetings

Chapter President Mohammad Masud Siraj, Vice President Nkorni Katte and Treasurer Georges Nehmetallah of the university of Dayton SPIE Chapter, attended the SPIE 51th Annual Meeting in San Diego. We had a display booth there and it included posters detailing UD's EO graduate programs and several optics-related exhibits.

General Meeting :

We had an general meeting on Sep 1st . On this meeting we had decided to arrange a picnic . The main goal of having a picnic was to inform all the new students of our optics about the activity of SPIE chapter and encourage them to join SPIE .

Wright-STEPP 2006 :

The University of Dayton SPIE student chapter k-12 outreach program for 10th grade student in conjunction with the Air Force Research Laboratory was held on June 23, 2006. . Students were introduced to the concept of polarization, laser, and spectroscopy on this outreach.

Picnic :

We had a picnic on Sep 30. Faculty, Staff and Students from Electro-optics participated on this day. We explain them on this day about our activity and the advantage to be a member of SPIE. There was a lot of fun on this event.

Future Plan

Outreach :

We performed an outreach in Miamisburgh High School on May 30 , 2006. Now we got an invitation from that school to arrange another outreach since they got a very good response from their students. So we are planning to do another outreach middle of January.

Field Trip :

We are planning to have a field trip in January. We have not decided the place yet.

Invited Speaker :

We are planning to invite a speaker from the SPIE distinguished lecturers list in end of the February .

Expenses :

Begning Balance	:	\$1043.14
General Meeting	:	\$ 45.00
Transportation (GLPS)	:	\$ 50.00
Registration (GLPS)	:	\$ 150.00
Cookout (GLPS)	:	\$ 300.00
Picnic	:	\$ 212.00
Current Balance	:	\$ 286.14
